PENTHOUSE LOFT ~ NEXT LEVEL HISTORY and ARCHITECTURE - If history, architecture and amazing views are important, then I have a real treat for you! Located on the top floor of the historically relevant McLeod Building, with views of City Hall and the Public Library, sits a cozy and perfectly located loft. Built at the turn of the century and modelled after the Chicago School of Architecture, the McLeod Building is described as the finest surviving example of early century architecture in Alberta. The pictures don't lie - this building is gorgeous. From the 2 storey marble foyer and copper elevators, to the magnificent wooden framed doors, even the original mail slots and massive safe doors still remain - a testament to the building's rich banking heritage. Inside the home you have high ceilings and massive windows that flood the home with natural light, it's a gorgeous blank slate, so let the designer in you come out! Walk to restaurants, festivals, the arena or the LRT, you cannot get a better location!

Built in 1905
